- John Angelo T. Mendoza
  Food Panda Delivery
  0999-822-2753

PROFILE

I was a Technical Support Representative for 4 months, despite being ill within that timeframe, but also the main reason I left that position. After leaving, I always tend to self-study any topic I find interesting. For example, **Web Designing and Development**, some **Back-end programming languages,** and more. I always tend to enhance all of my particular skills, especially after enrolling to my new school, wherein I find opportunities that I pursue.
